Recommendations

Future Majority was founded in 2017 to fill the critical need for an outside, non-biased, data-driven strategy center focused on reclaiming freedom and making the American worker the hero of our story. The Future Majority team has studied more than 27 million data points from 200,000+ unique voters, including more than 63,000 Democrats, 66,000 Independents, and 67,000 Republicans. **We have built one of the most comprehensive data sets on how American voters feel about issues, their leaders, and their own lives.**

This report includes the results from our recent Future Majority/Change Research survey of 2,532 voters in Nevada, Pennsylvania, & competitive New York congressional districts (Dec. 3-7, 2023) and other previous insights.

There is a flood of polling shared online these days: some quality, but much is garbage. Our recommendation is for Democrats to remain focused on the issues and delivering for the people.

Recommendations:

- Get Loud, Be Proud. Joe Biden is a very good president and Democrats are delivering for the people. Voters support the Democrats agenda, otherwise they would not be winning election after election. With that said, a significant amount of persuasion and education is needed to reach voters so they understand what the Democrats have done, and how their policy agenda will continue to give Americans more financial and individual freedom. Note: Too often, Democrats fail to acknowledge the challenges Americans face and try to win folks over with statistics and policy. First, acknowledge the challenges, and then make the policy argument while highlighting the American worker as the hero of the story.
- **Contrast with the Republican policy agenda.** The MAGA Republican agenda is an extreme assault on individual and financial freedom. From abortion bans to tax giveaways for the ultra-rich and attacks on Social Security and Medicare, there is a lot of material for Democrats to utilize in making their contrast arguments.
- Elections are about the Future. Debates over the past or centering on politicians do not work. Voters want solutions to the issues. Democrats should utilize the Freedom Frame and proposing ideas to create more opportunity for people to build a governing majority.

1) Democrats need a more persuasive economic message: "Bidenomics" does not work

- The data shows that **7 out of 10 voters** say their income is falling behind the cost of living. Additionally, former President Trump is more trusted than President Biden by 14-points on lowering the cost of living and 11-points jobs and the economy.
 - Biden also trails Trump with Independents on their approval of handling the economy. Just 18% approve of Biden, while 52% approve of Trump.
 - One area Democrats can make an effective argument on lowering costs is healthcare. Use the accomplishment of capping insulin
 costs to speak to a larger agenda of lowering health costs by holding corrupt insurance practices accountable and improving
 transparency in healthcare while defending the Affordable Care Act from MAGA extremists.

FM recommendation: Take Back Small Business with Made in America

- Key legislation passed by Joe Biden and the Democrats empower small business to start and grow, which helps combat the cost of living. Acknowledge that more work needs to be done, use the Financial Freedom Frame and wrap it in Made in America to make the worker the hero of the story.
 - 83% of voters agree with the statement: "Ensuring financial freedom means supporting small businesses so it's easier for Americans to build the future they want through lowering credit card interest rates, improving childcare, and expanding the childcare tax credit, guaranteeing access to broadband internet, worker retraining, and infrastructure investments to revitalize the American Dream."
 - 91% of voters agree with the statement: "Building a resilient Made in America economy is crucial to our financial freedom. American consumers should be empowered to make financial decisions that don't break the bank and aren't determined by global supply chains."

2) Leader Hakeem Jeffries & House Democrats' Message is Effective

- Voters prefer the House Democrats' For the People agenda over the extreme MAGA agenda that House Republicans' have adopted by 19 points, 51% to 32. +92 with Democrats, +29 with Independents, +44 with women, +30 with 18- to 34-year-olds.
 - 26% of voters approve of the job that the Republican-led Congress has done under Speaker Mike Johnson in improving their life. Do not let Trump distance himself from his Extreme MAGA GOP allies in the House. Trump handpicked extreme culture warrior Speaker Johnson. Add in the Trump Courts and it is a very strong attack on Republicans.

3) Younger Voters Need Motivation & Persuasion/Education

- **Two key points:** Among 18-34-year-old voters (minus committed Trump voters), 72% "believe MAGA Republicans threaten Democracy." However, just 14% say "since Joe Biden has become President, things have gotten better in my community."
- **49% of all 18-34-year-old voters believe that Republicans are more extreme** compared to 32% who say Democrats. With 18-women ages 18-34, 59% see Republicans as more extreme and 18% say Democrats, a 41-point advantage for Democrats.
- Only 23% of voters 18-34 years of age approve of "Joe Biden's handling of the conflict between Israel and the terrorist group Hamas, including his leadership on securing the recent pause in fighting to get hostages released and deliver humanitarian aid."

What Drives Voter Sentiment

Voters are not receptive to hearing about economic successes that do not align with their lived experiences

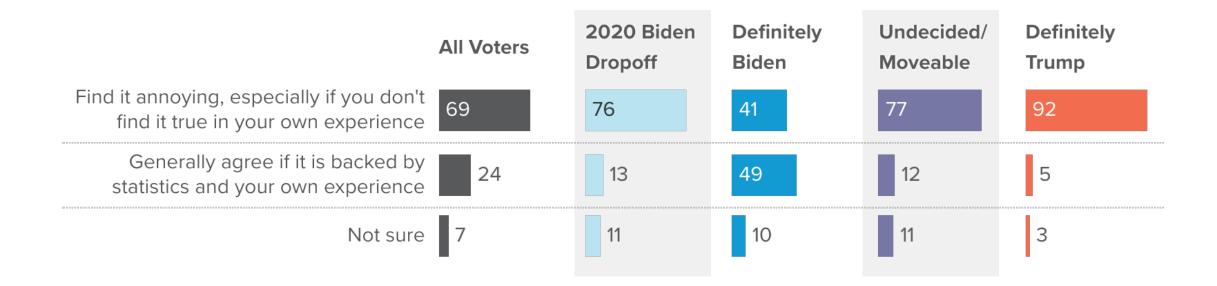

Our analysis has identified three key groups that Democrats need to improve their standing with if they hope to rebuild support for their governing agenda. *Note: a large segment considers themselves Low Income or Working Class.*

- Biden Drop-offs: These voters supported Joe Biden in 2020, but they are not yet convinced to support him again in 2024. In this survey, they are 66% women, and 59% under 49. Most (55%) do not have college degrees. 59% are white, 23% Hispanic, and 11% Black. Most are Democrats (60%), but nearly a quarter (22%) are Independents. 61% are describe themselves as Low Income or Working Class.
- Undecided & Moveable: These voters haven't made up their mind yet, and they don't really like either option. In this survey, they are 57% women and 57% are under age 49. 60% do not have college degrees. They are split 44% Democrat, 43% Republican, and 13% Independent. Half describe themselves as Low Income/Working Class.
- **Pure Independents:** Self-identified Independents. Most (82%) are under age 64, but are split nearly evenly among other age ranges: 28% are 18-34, 28% are 35-49, and 26% are 50-64. 62% identify themselves as white, 15% Hispanic, 9% Black, and 4% AAPI. 61% say they see themselves as Low Income or Working Class. 63% say they do not have a college degree.

The Biden Administration has capped costs in critical areas of healthcare such as insulin costs and limiting out-of-pocket prescription drug costs for older Americans. This is a game-changer for many families.		60		
To tackle high energy costs, the Biden Administration is making historic investments in clean energy and infrastructure. This includes initiatives to provide affordable high-speed internet to every family and deliver cheaper and cleaner energy, which in turn reduces utility bills.	70	41		
Under the Biden Administration, unemployment has fallen to a 50 year low, there are millions more new jobs, and wages have increased at the fastest rate in decades. No other recent president has achieved the success that Joe Biden has.	67	39		
The Biden Administration is creating more good-paying jobs, including union jobs, thus ensuring more Americans can earn a living wage. This has come through significant investments in infrastructure and manufacturing, boosting the economy and creating sustainable career opportunities.	67	35		
By bringing back supply chains and increasing domestic production, the Biden Administration is reducing costs on goods and stabilizing the market.		30		
The Biden Administration has reversed several decades of ineffective economic policies by adopting an industrial policy that brings back manufacturing, prevents companies from leaving to take advantage of cheap foreign labor, and protects us from shocks in global supply chains.		32		
The Inflation Reduction Act is a historic step to reduce the federal deficit and will help cool down inflation.	60	30		
The Biden Administration is focused on making housing more affordable. This involves investing in affordable housing construction and providing assistance to first-time homebuyers and low-income renters.	59	24		
The Biden Administration is taking measures to protect consumers from price gouging and unfair market practices.	58	29

Message Recommendations

The Freedom Frame begins to move key voters to rebuild the coalition needed for Democrats to regain a governing majority.

Which Candidate Do You Prefer?

The Financial Freedom message paired with Bidenomics begins to move voters from the MAGA economic agenda message. "Bidenomics" as a stand-alone message does not work.

"Bidenomics is about financial freedom and ensuring every American has a fair shot at building a better future for themselves because of opportunities in every zip code, supporting small businesses, smart investments in our infrastructure, making more goods in America, lowering costs to make things more affordable, and American workers."

"Making America Great Again by getting inflation under control by cutting outof-control government spending, getting people back to work, cracking down on violent crime, banning Critical Race Theory in public schools, and securing the southern border with Mexico."

"Bidenomics is about rebuilding the middle class and restoring the American dream by growing the economy from the middle out and the bottom up. I will invest in America's families and make more in America while reducing unemployment and increasing wages for workers. Trickle-down economics has failed the country for decades. I will invest in America so we lead the world in innovation once again."

Extreme MAGA Republicans are lining up to destroy our bedrock freedoms with a national abortion ban, cutting Social Security and Medicare, and repealing the Affordable Care Act, kicking millions off of their health insurance and removing protections for pre-existing conditions."

 "I will work to restore American family values in Congress by working to ban abortion, keeping gender ideology and LGBT indoctrination out of schools, privatize Social Security and Medicare, finally repeal Obamacare and replace it with something better, and get the government off of businesses' backs. Radical Democrats want the government to control every aspect of Americans' lives."

President Biden's re-election announcement focuses on restoring and protecting personal freedom, makes the worker the hero of the story, and uniting the country against the extremist forces that seek to keep us divided. Our data shows that these messages resonate with voters. Too many pundits act like the election is tomorrow...it is not. Recent elections prove that when Democrats communicate, voters support their agenda.

In the launch video titled "Freedom," President Biden details how the "battle for the soul of the nation" continues today, and how our personal freedoms are under attack – making the choice in the next election between having more or less freedom.

The second ad released as part of President Biden's announcement, "Flag," builds on the President's Freedom Frame and embraces the values that make us Americans: courage, opportunity, democracy, and freedom.

A new positive ad in Michigan focuses on how President Biden is expanding economic freedom and opportunity for small businesses in Detroit, making the founder of a local business the hero of the story.

The Freedom Frame is flexible. Nearly every issue can be framed through this argument, both for individual and financial interests, which are more interconnected than ever.

82% of voters in swing states and swing congressional districts agree with the statement: "True individual freedom cannot exist without economic security and independence."

The Freedom Frame can be used for nearly every issue. Here are five key examples:

Individual Freedom Frame

"Investing in broadband enhances Americans' individual freedoms by creating a catalyst so that every citizen has opportunities for growth, education, civic discourse, and the ability to pursue their passions without limitation."

"Reproductive freedom and bodily autonomy are the cornerstone of Americans' individual freedom. These fundamental freedoms empower Americans to make deeply personal choices without government interference."

"Made in America means every American has more individual freedom – from making purchasing decisions to promoting ethical and sustainable production practices. Made in America empowers the freedom of choice."

"Affordable higher education means that Americans have the individual freedom and opportunity to pursue their academic and career passions, rather than being driven solely by the need to repay debt."

"After a lifetime of work, Americans deserve the individual freedom to enjoy their retirement and live out their golden years in dignity. That means protecting and expanding Social Security and Medicare, which is paid for by American workers." Investments in Infrastructure like Broadband

Reproductive Rights & Bodily Autonomy

Made in America

Student Loans & College Affordability

Financial Freedom Frame

"Investments in improving access to affordable broadband internet expand financial freedom and unlocks a world of opportunities to start a business or pursue a career, no matter your ZIP code."

"Reproductive freedom is a kitchen table issue. Ensuring access to affordable and safe healthcare services safeguards financial freedom by allowing Americans to pursue their goals while planning for a family."

"Building a resilient Made in America economy is crucial to our financial freedom. American consumers should be empowered to make financial decisions that don't break the bank and aren't determined by global supply chains."

An Agenda for the Future

Americans are eager for solutions to challenges we face – both today and in the future. We asked voters about a wide range of policy solutions. On numerous measures, there is broad, bipartisan support.

Impact of Trump Trials

Among everyone except Biden voters who say they would never vote for Trump - If Donald Trump is found guilty of criminal charges in the federal cases related to subverting America's democracy and mishandling classified information, how much influence would that have on your vote for president in 2024?

Recommendations

Future Majority was founded in 2017 to fill the critical need for an outside, non-biased, data-driven strategy center focused on reclaiming freedom and making the American worker the hero of our story. The Future Majority team has studied more 29 million data points from more than 198,000 unique voters, including more than 63,000 Democrats, 66,000 Independents, and 67,000 Republicans. **Our team has created one of the most comprehensive data sets on how American voters feel about issues, their leaders, and their own lives.**

In summary, Democrats:

- Start talking to voters today be loud and proud!
- Contrast with the Extreme MAGA Republican policy agenda.
- Remember: Elections are always about the Future.
